

You know
what's coming...

Wouldn't it be nice
to get
thousands
to help pay for
tuition?

We Canadians are fortunate to have an excellent post-secondary education system. Unfortunately, we also know that getting a degree isn't cheap.

You've probably already thought about putting some money aside now for your child's education. Maybe you've already started. Good.

You can do better.

In addition to a possible \$13 500 more available for post-secondary school costs (see the math on the board to the left), here's what this RESP plan includes:

- ✓ Tax sheltered growth (like an RRSP)
- ✓ Conservative & balanced portfolio of index funds
- ✓ **Guaranteed dollar gain when your child is 18**
- ✓ Get the contributions back, if you need to
- ✓ Transfer the plan to another student (maybe you!)
- ✓ Use the money for any post-secondary education (not just university) anywhere worldwide
- ✓ Option for insurance to pay monthly contributions until your child is 18
- ✓ Option of lump-sum prepayment at a discount

And if you've already started an RESP, you can transfer that money into this plan... tax-free.

Be sure to check out the points circled in red a second time - those parts are unique to this RESP plan.

Unique RESP
20% bonus
on deposits
(from the fed gov't)
+
**Up to 15% extra
bonus on deposits
(from the ins. co.)**
Up to \$13 500 more
for tuition

Jill MacGregor Bock is an independent advisor. That means she investigates products from a variety of companies in order to find the best one for you.

By the way, Jill put her two kids through university.
Nice to know you'll get advice you can trust.
